Background

Health and Care Research Wales is a research infrastructure funded by the Division of Research & Development, Welsh Government. The overarching vision of Health and Care Research Wales is to be internationally recognised for its excellent health and social care research that has a positive impact on the health, well being and prosperity of the people in Wales. A **Support and Delivery infrastructure** was established in 2015 in order to achieve maximum efficiency and effectiveness and international competitiveness in the research environment within Wales. This included a **Support Centre** to provide centralised functions and services at a National level and local R&D functions via **NHS R&D Departments** at each organisation. The

CAJE Reference/Date:

Health and Care Research Wales Support and Delivery mission is to facilitate health and social care research that will improve the health and well-being of people in Wales by providing an effective and efficient joined up centralised and local service.

The **NHS R&D Departments** led by a R&D Director provide local services for research support and facilitates the sponsoring and hosting of studies within in each UHB. Part of this service includes a NHS research delivery team consisting of Research Nurses, Clinical Studies Officers, Research Officers and Administrators, employed by NHS organisations to support the delivery of high quality health and social care studies. The Research Nurse will be a part of these NHS research delivery teams.

Job Purpose

- The purpose of this post is to increase the number of patients participating in clinical trials at xxxx UHB covering xxxx.
- The post will contribute to the assessment and management of the care pathways for patients and carers participating in clinical trials. This will include the recruitment, education and a monitoring of trial patients and the collection and documentation of accurate data.
- The post holder will be working with Lead Nurses and multidisciplinary teams within the Clinical Boards and Directorates as well as the wider research teams assisting with the management of a caseload of clinical trials patients.
- The post will assess and carry out clinical procedures for patients/participants and will be considered part of the clinical team during the participants' involvement with the study. Implementing a programme of care, providing advice and will maintain records within various settings.
- As part of the Research and Development team the post holder will contribute to the efficient set up and delivery of research within the UHB contributing to the performance metrics set for the UHB.

DUTIES/RESPONSIBILITIES:

Clinical and Professional Responsibilities

- Initially work with supervision with the aim of working autonomously to assist in the management of a caseload of clinical trial patients, whilst working as part of a multi-disciplinary team. Maintain effective communication with patients, carers and professionals to ensure high quality service delivery.
- Trained and assessed as competent in line with the research competencies framework.
- Assist in identifying suitable patients for entry into clinical trials by attending clinics (screening notes) and relevant Multi-disciplinary Team meetings. Use relevant clinical knowledge to identify patients suitable for clinical research using inclusion and exclusion criteria and utilising NHS records, visiting wards and outpatients.
- Act as a resource and role model for all aspects of research clinical practice in order to optimise patient care and clinical practice.
- Carry out physical assessments, taking blood/urine samples and processing according to protocol.
- Ensure the environment is suitable for patient care and research processes, recognising the importance of privacy, dignity and diversity.

CAJE Reference/Date:

- Responsible for the care of research participants within the relevant sphere of practice and use opportunities to provide health promotion and patient education.
- Facilitate recruitment into a number of research studies ensuring all study timelines are met
- Maintain accurate documentation of patient events in nursing/medical notes and Case Report Forms.
- Demonstrate a comprehensive understanding of treatment options, treatment side effects and disease processes to support patients in making an informed treatment choice
- Provide ongoing information, education and support to patients (and their significant others) regarding clinical trials and specific trial treatments
- Ensure that trial specific investigations are undertaken as required by the trial protocol and obtain results in order to establish eligibility and safety to enter the trial
- Safely administer the trial related treatments and drugs that are given within the context of a clinical trial.
- Assess and manage any adverse reactions occurring during treatments as per protocol seeking advice or guidance from specialist nurse or clinician as appropriate. Initiate changes to treatments or treatment cessation in accordance to the protocol and with advice from a clinician.
- Provide continuity of care to patients and their carers throughout the trial programme. Provide specific advice and support as appropriate. Refer to other specialists as required to ensure optimum patient care.
- Maintain accurate patient trial documentation, complete Case Record Forms, including the use of electronic data capture systems and ensure relevant information is recorded in patients' medical notes
- Contribute to the monitoring of clinical standards within the research team.
- Work within NMC Code demonstrating accountability for own actions and awareness of own limitations.
- Utilise Information Governance guidance for the handling of sensitive patient data.
- Mentor new research delivery staff within the UHB and provide clinical supervision for staff and students.
- Develop additional clinical skills to meet the needs of individual studies.

Research

- Be responsible for the delivery of allocated research studies.
- Ensure that the delivery of studies meet requirements with regards to the All Wales Research Governance Framework for Health & Social Care and the EU Clinical Trials Directive by implementing quality systems.
- Participate in Good Clinical Practice (GCP) training.
- Contribute to the Expression of Interest / Study Selection process
- Contribute to study set up, recruitment planning and study delivery.
- Be responsible for promoting the appropriate referral and recruitment of patients to clinical research studies. Work with research teams and investigators to develop strategies to overcome barriers to recruitment and to solve other problems relating to specific studies.
- Coordinate and run study visits including off site visits whilst adhering to the lone worker policy.
- Work with other departments within the UHB to ensure that trial specific investigations and procedures are undertaken as required by the trial protocol, in order to establish eligibility and safety of patients within research.
- Contribute to the accurate costing for research studies and appropriate negotiation of required financial support to deliver studies.

CAJE Reference/Date:

- Ensure clear, accurate and concise records are kept for research projects in accordance with all regulatory requirements including the Data Protection Act.
- Ensure that data is transcribed accurately where required and assist with the maintenance of the Trial Master File.
- Respond to data queries generated by the study coordinating team within a timely manner.
- Ensure the recording & reporting of adverse and serious adverse events that occur whilst the participant is in the research study to the study co-coordinator/Principal Investigator (PI) and R&D office in line with the study protocol, local policies and regulatory requirements.
- Assess and evaluate the progress of on-going studies, maintaining accurate records of the status of studies and providing regular updates to the department on the status of the studies. This will involve ensuring that the Local Patient Management System (LPMS) is updated with key study data and validated efficiently.
- Escalate on-going study performance issues to the Senior Research Nurse/Team Lead.
- Co-operate with external and internal audit, data monitoring and quality assurance by working with R&D, sponsors, study monitors and external bodies.
- Assist in study close down and the preparation of results of research for presentation as posters, abstracts, papers or scientific presentations.

Professional Development and Education

- Attend relevant meetings and provide regular research progress reports. These reports will influence actions and decision on future research. The post holder will contribute to the development of new research proposals as appropriate.
- Required to keep up to date with policy developments especially in Welsh Government and NIHR (UK).
- Mentor new Workforce staff.
- Whilst the post holder will work within specific research study protocols and guidelines it is essential for the post-holder to work on her/his own initiative, demonstrate a flexible approach to work and to function well as part of the Research Delivery Team within the HB. The post holder will need to provide professional leadership on research when talking to clinical teams.
- Advocate for research and will provide education and training on research projects to interested parties as required.

Quality

- Support and participate in study audits within research and development actively feeding back on lessons learnt and improving the service provided.
- Participate in task and finish groups developed through the UHB and Health and Care Research Wales, evaluating work to positively introduce change.
- Feedback on pharmaceutical and sponsor monitoring visits in research and distributing any lessons learnt at team meetings.
- Ensure all staff adhere to relevant legislation including the Research Governance Framework 2005 and ICH GCP.

Information Finances and Physical Resources

- Responsible for reporting defective equipment to relevant department.
- Observe personal duty of care in relation to equipment and resources used in course of work.

CAJE Reference/Date:

- Responsibility for financial resources will be dependent on the Research Funds for specific studies and determined by the research funder and/or sponsor.
- May be required to deliver presentations to clinical teams which will involve standing for periods of time.
- Requirement to use a keyboard and VDU equipment on a daily basis.

GENERAL REQUIREMENTS

- **Values:** All employees of the Health Board are required to demonstrate and embed the Values and Behaviour Statements in order for them to become an integral part of the post holder's working life and to embed the principles into the culture of the organisation.
- **Registered Health Professional:** All employees who are required to register with a professional body, to enable them to practice within their profession, are required to comply with their code of conduct and requirements of their professional registration.
- **Competence:** At no time should the post holder work outside their defined level of competence. If there are concerns regarding this, the post holder should immediately discuss them with their Manager/Supervisor. Employees have a responsibility to inform their Manager/Supervisor if they doubt their own competence to perform a duty.
- **Learning and Development:** All staff must undertake induction/orientation programmes at Corporate and Departmental level and must ensure that any statutory/mandatory training requirements are current and up to date. Where considered appropriate, staff are required to demonstrate evidence of continuing professional development.
- **Performance Appraisal:** We are committed to developing our staff and you are responsible for participating in an Annual Performance Development Review of the post.
- **Health & Safety:** All employees of the organisation have a statutory duty of care for their own personal safety and that of others who may be affected by their acts or omissions. The post holder is required to co-operate with management to enable the organisation to meet its own legal duties and to report any hazardous situations or defective equipment. The post holder must adhere to the organisation's Risk Management, Health and Safety and associate policies.
- **Risk Management:** It is a standard element of the role and responsibility of all staff of the organisation that they fulfil a proactive role towards the management of risk in all of their actions. This entails the risk assessment of all situations, the taking of appropriate actions and reporting of all incidents, near misses and hazards.
- **Welsh Language:** All employees must perform their duties in strict compliance with the requirements of their organization's Welsh Language Scheme and take every opportunity to promote the Welsh language in their dealings with the public.
- **Information Governance:** The post holder must at all times be aware of the importance of maintaining confidentiality and security of information gained during the course of their duties. This will in many cases include access to personal information relating to service users.
- **Data Protection Act 1998:** The post holder must treat all information, whether corporate, staff or patient information, in a discreet and confidential manner in accordance with the provisions of the Data Protection Act 1998 and Organisational Policy. Any breach of such confidentiality is considered a serious disciplinary offence, which is liable to dismissal and / or prosecution under current statutory legislation (Data Protection Act) and the HB Disciplinary Policy.
- **Records Management:** As an employee of this organisation, the post holder is legally responsible for all records that they gather, create or use as part of their work within the organisation (including patient health, staff health or injury, financial, personal and administrative), whether paper based or

CAJE Reference/Date:

on computer. All such records are considered public records and the post holder has a legal duty of confidence to service users (even after an employee has left the organisation). The post holder should consult their manager if they have any doubt as to the correct management of records with which they work.

- **Equality and Human Rights:** The Public Sector Equality Duty in Wales places a positive duty on the HB to promote equality for people with protected characteristics, both as an employer and as a provider of public services. There are nine protected characteristics: age; disability; gender reassignment; marriage and civil partnership; pregnancy and maternity; race; religion or belief; sex and sexual orientation. The HB is committed to ensuring that no job applicant or employee receives less favourable treatment on any of the above grounds. To this end, the organisation has an Equality Policy and it is for each employee to contribute to its success.
- **Dignity at Work:** The organisation condemns all forms of bullying and harassment and is actively seeking to promote a workplace where employees are treated fairly and with dignity and respect. All staff are requested to report any form of bullying and harassment to their Line Manager or to any Director of the organisation. Any inappropriate behaviour inside the workplace will not be tolerated and will be treated as a serious matter under the HB/Trust Disciplinary Policy.
- **DBS Disclosure Check:** In this role you will have * direct / indirect contact with* patients/service users/ children/vulnerable adults in the course of your normal duties. You will therefore be required to apply for a Criminal Record Bureau *Standard / Enhanced Disclosure Check as part of the HB/Trust's pre-employment check procedure. *Delete as appropriate. The post holder does not require a DBS Disclosure Check. *Delete as appropriate.
- **Safeguarding Children and Adults at Risk:** The organisation is committed to safeguarding children and adults at risk. All staff must therefore attend Safeguarding Children & Adult training and be aware of their responsibilities under the All Wales Procedures.
- **Infection Control:** The organisation is committed to meet its obligations to minimise infections. All staff are responsible for protecting and safeguarding patients, service users, visitors and employees against the risk of acquiring healthcare associated infections. This responsibility includes being aware of the content of and consistently observing Health Board Infection Prevention & Control Policies and Procedures.
- **No Smoking:** To give all patients, visitors and staff the best chance to be healthy, all Health Board sites, including buildings and grounds, are smoke free.

Flexibility Statement: The duties of the post are outlined in this Job Description and Person Specification and may be changed by mutual agreement from time to time.

Complete, add or delete as appropriate the text boxes below showing the organisational relationships.

Job Title: Clinical Research Nurse

Supplementary Job Description Information

Please complete information on Physical Effort, Mental Effort, Emotional Effort and Working Conditions in order to assist the Job Matching process.

Physical Effort

This factor measures the nature, frequency and duration of physical effort (sustained effort at a similar level or sudden explosive effort) required for the job.

Please ensure any circumstances that may affect the degree of effort required, such as working in an awkward position; lifting heavy weights etc. are detailed, such as:

'Working in uncomfortable/unpleasant physical conditions; sitting in restricted positions; repetitive movements; lifting heavy weights; manipulating objects; kneeling, crouching, twisting; heavy duty cleaning; working at heights; using controlled restraint; driving as part of daily job - **N.B. Walking /driving to work is not included'**

Examples of Typical effort(s)	How often per day / week / month	For how long?	Additional Comments
The post-holder is frequently exposed to unpredictable episodes of moderate exertion. For example whilst moving and handling patients with physical limitations from bed to chair or who are attached to medical devices.	Variable	Variable	
The post-holder maybe required to physically manoeuvre (with appropriate aids) heavy pieces of equipment. The post holder will frequently be required to bend, lift, stretch and kneel whilst undertaking clinical duties	Weekly	Variable	
The post-holder maybe required to sit for varying lengths of time in a restricted position using computer.	Variable	Variable	

CAJE Reference/Date:

Mental Effort

This factor measures the nature, level, frequency and duration of mental effort required for the job, for example, concentration, responding to unpredictable work patterns, interruptions and the need to meet deadlines.

Please identify the normal requirement to concentrate in the post and determine, how often and for how long it is required to concentrate during a shift / working day, e.g.:

'Carrying out formal student assessments; carrying out clinical/social care interventions; checking documents; taking detailed minutes at meetings; operating machinery/equipment; carrying out screening tests/microscope work; carrying out complex calculations; carrying out non-clinical fault finding; responding to emergency bleep; driving a vehicle; examining or assessing patients/clients.

Examples of Typical effort(s)	How often per day / week / month?	For how long?	Additional Comments
Check documents, undertake clinical interventions- e.g.: calculate drug dosages, administer medications, injections, and venepuncture, and enter data onto databases, record adverse events/reactions all on an ongoing basis.	Variable	Variable	
Collecting, recording, verifying and entering clinical activity data from external and internal sources with a high degree of accuracy and ensuring all data are validated	Daily	Variable	
Resolve data queries for a wide portfolio of studies	Daily	Variable	

CAJE Reference/Date:

Emotional Effort

This factor measures the nature, frequency and duration demands of the emotional effort required to undertake clinical or non-clinical duties that are generally considered to be distressing and/or emotionally demanding.

Please identify how often the post holder has exposure to direct and/or indirect distressing and/or emotional circumstances and the type of situations they are required to deal with.

For example, 'processing (e.g. typing/transmitting) news of highly distressing events; giving unwelcome news to patients/clients/carers/staff; caring for the terminally ill; dealing with difficult situations/circumstances; designated to provide emotional support to front line staff; communicating life changing events; dealing with people with challenging behaviour; arriving at the scene of an accident.' **N.B. Fear of Violence is measured under Working Conditions**

Examples of Typical effort(s)	How often per week / month?	For how long?	Additional Comments
Occasional dealings with complaints, incidents (clinical and non-clinical)	Variable	Variable	
Act as an advocate for patients, occasional requirement to intervene on behalf of patients. Dealing with distressed patients and or relatives	Variable	Variable	
In contact with patients at differing points of their care pathway. Dealing with patients from a newly diagnosed disease to patients with an end of life scenario and palliative care.	Variable	Variable	

CAJE Reference/Date:

Working Conditions

This factor measures the nature, frequency and duration of demands on staff arising from inevitably adverse environmental conditions (such as inclement weather, extreme heat/cold, smells, noise and fumes) and hazards, which are unavoidable (**even with the strictest health and safety controls**), such as road traffic accidents, spills of harmful chemicals, aggressive behaviour of patients, clients, relatives, carers.

Please identify unpleasant working conditions or hazards which are encountered in the post holder's working environment and establish how often and for how long they are exposed to them during a working day / week / month.

Examples are – use of VDU more or less continuously; unpleasant substances/non-household waste; infectious material/foul linen; body fluids, faeces, vomit; dust/dirt; fleas/lice; humidity; contaminated equipment or work areas; driving/being driven in normal or emergency situations - ***Driving to and from work is not included**

Examples of Typical Conditions	How often per week / month?	For how long?	Additional Comments
Use of VDU.	Daily.	1-3hrs	
Requirement to work across the regional infrastructure of local services and to travel on a regular basis	Weekly	Variable	
Exposure to body fluids, for example collection of samples and specimens from patients (stools, blood, saliva, sputum, urine).	Weekly	Variable
