[Become involved in a hip fracture study](#)

Please explain in your own words how you match all of the 'who can get involved' section in the advert

I am applying to get involved in this study because my mother fell and broke her hip last year and I looked after her when she came home from hospital.

I was with her when she fell, she was in terrible pain but the paramedics were brilliant and able to give her something before getting her into the ambulance.

I am keen to support this research that will help people like my mum in the future.

I have read and agree to the public involvement agreement
