Excellent care, inspirational learning, healthier people

Patients are missing out on research opportunities for new / novel cancer treatments and therapies.

- Complex care needs.
- Access not consistent.
- Urgent need for equity.

Joining forces to deliver more opportunities for patients living with cancer.

- Cardiff Cancer Research Hub unites strengths.
- Greater ability to offer complex trials.
- Shared processes and shared trust.

Taking research opportunities to where the patients are – greater access.

- National reach, personal care.
- Decentralised cancer vaccine trials.
- Local access, greater inclusion.

Reimagining roles to meet the realities of today's research landscape.

- Built around research needs.
- Brings delivery activities together.
- Boosts resilience and flexibility.

Collaboration makes a difference in patients accessing research opportunities.

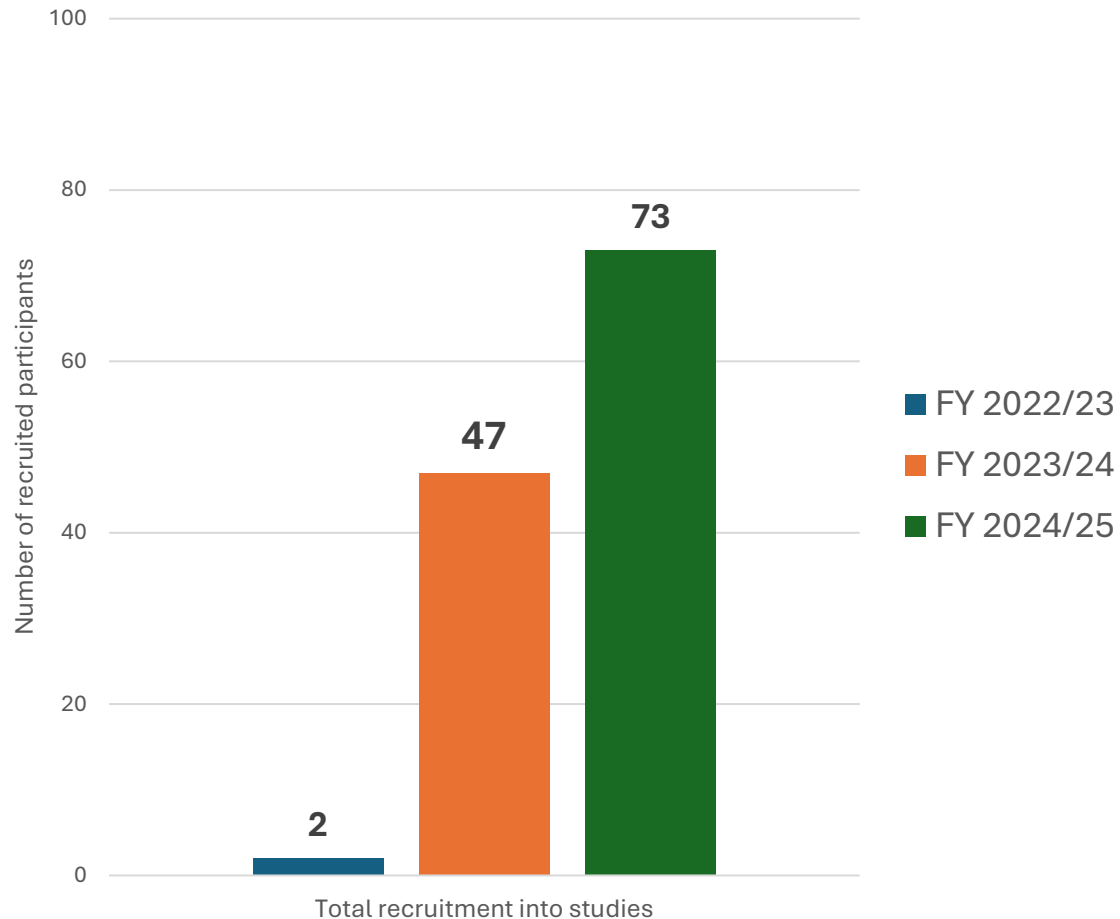

- Broader access to research treatments.
- Collaborative cross-site referrals.
- Greater number of patients screened.

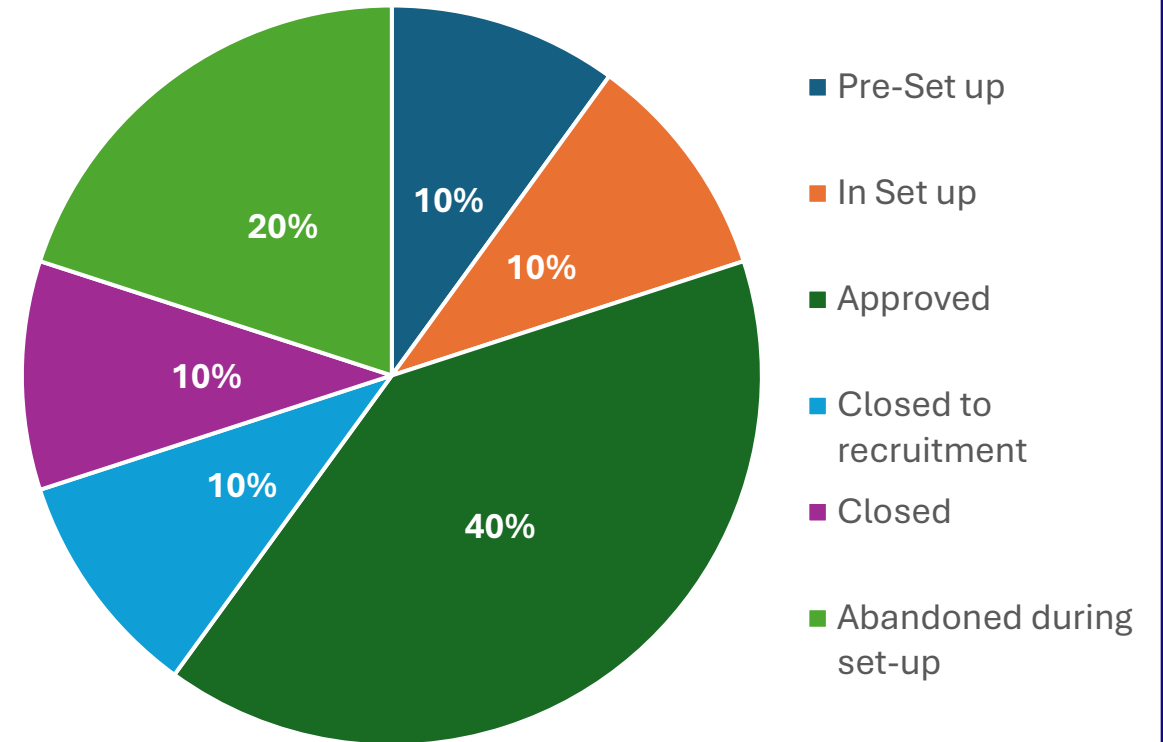

Research excellence is working together – for every patient.

- United by cancer patient need.
- Collaboration powers change.
- Equal access is our driver.

**We are not just delivering
cancer research.**

**We are delivering hope, equity,
and life – together!**
